Additional comments: Qualified contractor willing to work with you to get the job done on time and on budget, with the goal to fulfill the project requirements and satisfy the client. Accommodating to changes and capable of reacting to the ever changing dynamic of a construction project. Safety orientated and accountable for not only themselves but also the sub-tier contractors under them.

*Staffing – Started off one of the projects a little light on field staffing, primarily due to job conditions and location, was able to recognize the problem before it got worse. Supplemented staff accordingly and finished strong.
